

CHANDRU K

Full Stack Developer

PROFESSIONAL SUMMARY

Aspiring Software Engineer proficient in MERN stack (MongoDB, Express.js, React, Node.js), Python, SQL, and cloud platforms. Experienced in building scalable full-stack applications, managing databases, creating APIs, and problem-solving. Adapt at contributing to team projects with innovation, efficiency, and delivering practical software solutions.

EDUCATION

B.E. Computer Science and Engineering

Kongu Engineering College

08/2023 05/2027 Perundurai CGPA: 7.34

HSC (Computer Science and Maths)

Kongu Vellalar Matric Hr. Sec. School

08/2020 05/2023 Chennai percentage: 76.5

EXPERIENCE

Internship

- Completed the Gen AI Consortium Internship, gaining exposure to AI-driven solutions and real-world problem solving.
- Currently an Intern in the Product Development Team at Zygreen. Assisting in product development and collaborating with the design team

PROJECTS

- Book-Bazar**: Developed a full-stack web application using React for the frontend and MongoDB for the backend, enabling efficient management of books, users, and transactions.
Git link: <https://github.com/CHANDRUK3/BookBazar>
- FreshSip** – Juice Delivery Web Application (MERN Stack)
Built a full-stack juice delivery platform using React, Node.js, Express, and MongoDB. Implemented user authentication with JWT, role-based admin dashboard, order tracking, and product management. Deployed frontend on Vercel and backend on Render, handling real-world deployment, CORS, and performance optimizations.
Git link: <https://github.com/CHANDRUK3/Freshsip>
- Medico**: Created a responsive AI-powered chatbot using React.js and Express.js for the frontend and Flask with a trained AI model for the backend, assisting in preliminary medical queries and guidance.
Git link: <https://github.com/CHANDRUK3/Medico>
- Campus Job Board** : (Current Project): Developing a full-stack platform using React.js (frontend), Express.js (backend), and MongoDB to manage campus placements.
Gitlink:<https://github.com/CHANDRUK3/Campus-Job-Board-Management>

KEY ACHIEVEMENTS

Winner – Civil Tech Innovators 2024 (1st Prize) for presenting "InfraGuard", a project on predictive monitoring and efficient management of bridge infrastructure.

SKILLS

Frontend : HTML, CSS, JavaScript, React, UI/UX

Backend : Flask, Express.js, Node.js

Database : MongoDB, MySql

Tools / Others : Git/GitHub, Figma

Languages: C, Java, Python

AREAS OF INTEREST

Web Development

UI/UX Design

CERTIFICATION

MongoDB Associate Developer- MongoDB University(2025)
